**EXTERNAL GROUND
PROTECTION**

www.beckuk.com

External Ground protection, though frequently unnoticed, is a critical element of any construction site.

Our range of heavy-duty matting offers a solution for both short-term and long-term projects.

Crafted from recycled materials and fully recyclable, our ground matting not only ensures environmental sustainability but also promises exceptional durability.

Safeguard your site with our brand of Proguard® ground protection mats. They have been expertly designed to create secure pathways while preserving the integrity of underlying surfaces.

PROGUARD PREMIUM GROUND PROTECTION MAT

2.4M X 1.2M X 10MM PGM9

Product Code	Pricing Unit	Colour	Dimensions	Thickness	Pack Quantity	Pallet Quantity
PGM9	Each	Black	2.4m x 1.2m	10mm	1	50

Product Description:

Proguard Premium Ground Protection Mats are manufactured from durable 100% recycled LDPE with a pattern that prevents slipping on one side. They incorporate two lifting handles on each end to facilitate easy lifting and a connecting hole in each corner which is compatible with our 2- and 4-way connectors and U-Pin connectors. When combined with the low weight of 22kg per mat this makes the mat extremely versatile.

These mats are ideal for creating walkways and access routes for smaller plant, equipment & vehicles. Proguard Premium Ground Protection Mats can handle loads of up to 10 tonnes depending on ground conditions underneath.

Benefits:

- 100% recycled material
- Unique diamond pattern for optimal grip
- Connection hole in each corner
- Lightweight for manual handling with 2 people
- Prevents environmental and property damage
- Prevents vehicles from becoming bogged
- Allows easier access in poor ground conditions
- Flexible to conform to ground contours
- Lower weight = lower transport & handling costs

Limitations:

- Not suitable for larger loads on soft or boggy ground

PROGUARD HEAVY DUTY ACCESS MAT 1.2M X 2.4M PGM1

Product Code	Pricing Unit	Colour	Dimensions	Thickness	Pack Quantity	Pallet Quantity
PGM1	Each	Black	1.2m x 2.4m	12.7mm	1	30

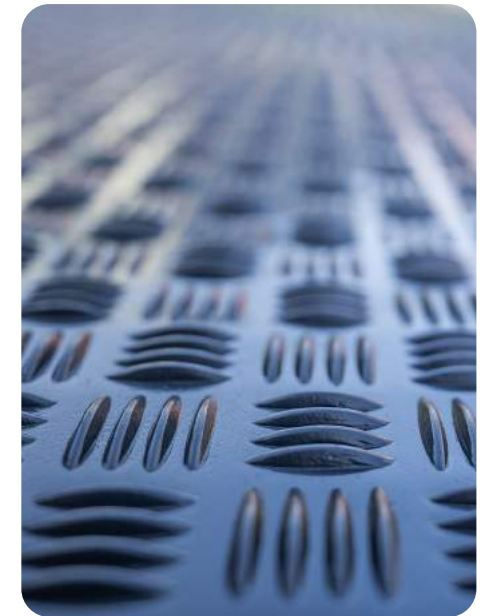

Product Description:

Proguard Heavy Duty Access Mats are the premier product for temporary access for higher loads up to 80 tonnes. It is a high-quality mat manufactured from 100% recycled HDPE, weighing only 41kg. This makes them highly versatile and the preferred choice for many large construction sites.

Benefits:

- 100% recycled material
- Engineered, 2-sided surface to prevent slipping
- Lightweight for manual handling with 2 people
- Prevents environmental and property damage.
- Prevents vehicles from becoming bogged.
- Allows easier access in poor ground

conditions.

- Lower weight = lower transport & handling costs
- 100% recyclable
- 4 hand holes for easy handling.
- 4 connection holes to ensure the mats remain in place.
- Can be used in vehicle and pedestrian access situations.
- Up to 80 tonne bearing capacity on firm ground.

PROGUARD TRACKWAY MAT

2.5M X 3M X 38MM PGM8

Product Code	Pricing Unit	Colour	Dimensions	Thickness	Pack Quantity	Pallet Quantity
PGM8	Each	Black	2.5m x 3m	38mm	1	1

Product Description:

Proguard Trackway Mats are manufactured from durable HDPE and feature a unique diamond pattern for optimal grip. They are suitable for larger loads, up to 160 tonnes depending on ground conditions. Ensuring you can keep your project moving in wet & muddy conditions, even with heavier plant & equipment. Trackway mats are also a great solution for creating temporary car parking and compound areas on longer-term jobs.

Benefits:

- Unique diamond pattern for optimal grip
- Prevents environmental and property damage.
- Prevents vehicles from becoming bogged down.
- Allows easier access in poor ground conditions.
- Provides support for heavier vehicles or over softer ground conditions.
- Connectors included with the mats

PROGUARD SAFE SITE MATTING

1.2 X 0.6 X 22MM PGM5

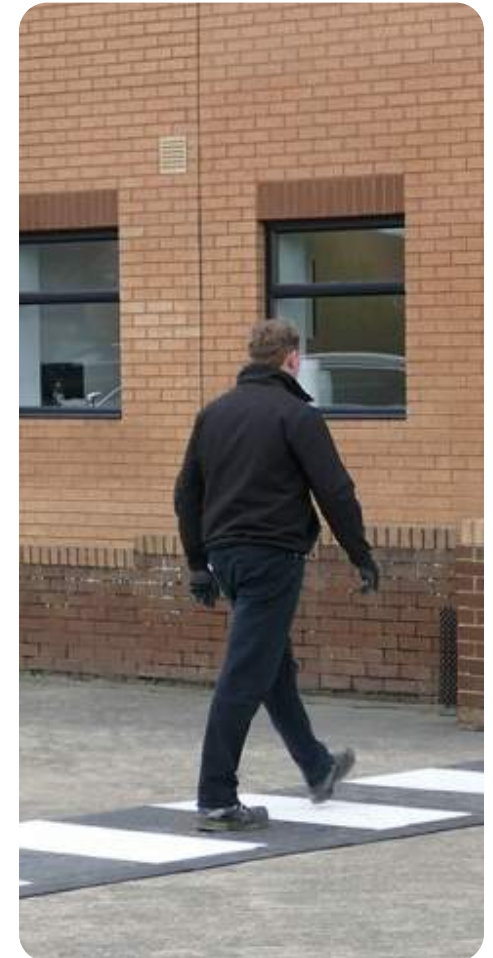

Product Code	Pricing Unit	Colour	Dimensions	Thickness	Pack Quantity	Pallet Quantity
PGM5	Each	Black	1.2m x 0.6m	22mm	1	70
PGM5Y	Each	Yellow	1.2m x 0.6m	22mm	1	70
PGM5W	Each	White	1.2m x 0.6m	22mm	1	70

Product Description:

Safe Site Matting incorporates an innovative interlocking design to be quick, easy, and safe to install. These mats can be installed on virtually any surface. The smaller size of the mats also makes them ideal for creating walkways and roadway crossing points for pedestrians on site. They are also perfect for creating temporary flooring in marquees, tents, & events. The Yellow and White options allow you to colour code walkways and mark pedestrian crossings easily and efficiently.

Benefits:

- 100% Recycled Material
- UV and Frost Resistant
- Quick & Easy to Use
- Easy to Clean
- Resistant to Oils, Chemicals & Toxins

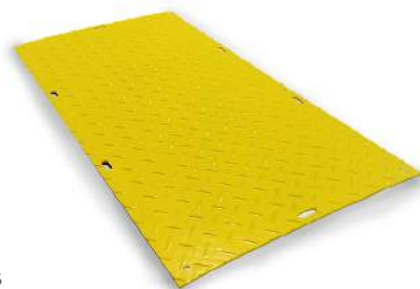

PROGUARD HI-VIS GROUND MAT

1.2M X 2.4M X 12MM PGM4

Product Code	Pricing Unit	Colour	Dimensions	Thickness	Pack Quantity	Pallet Quantity
PGM4	Each	Yellow	1.2m x 2.4m	12mm	1	30

Product Description:

Proguard Hi-Vis Ground Mats are high-quality, heavy-duty ground mats specially designed to allow sites with low light and low visibility conditions to clearly mark access routes. These mats incorporate a specially designed diamond pattern surface to prevent vehicles from slipping on one side and a more conventional, raised pattern on the other to provide a safe surface for pedestrian access and excellent traction in a variety of applications. Weighing only 36Kg each, these mats can be handled and laid by 2 people, reducing handling costs as no heavy equipment is needed.

Benefits:

- 100% recycled material
- Unique diamond pattern for optimal grip
- Lightweight for manual handling with 2 people
- Prevents environmental and property damage
- Prevents vehicles from becoming bogged
- Allows easier access in poor ground conditions
- Lower weight = lower transport & handling costs
- 100% recyclable
- 6 hand holes allow multiple manual handling options.
- Can be used in vehicle and pedestrian access situations.

PROGUARD GROUND MAT CONNECTORS

PGMC

Product Code	Pricing Unit	Colour	Application	Material
PGMC1	Each	Black	Suitable for use with PGM1, PGM4 and PGM9 mats	Plastic
PGMC2	Each	Black	Suitable for use with PGM1, PGM4 and PGM9 mats	Plastic
PGMC4	Each	Steel	Suitable for use with PGM1, PGM4 and PGM9 mats	Metal

Product Description:

Ground Mat Connectors are specially designed to hold mats together when laid. This increases safety by preventing them from slipping and reducing trip hazards by ensuring that they don't lift up on uneven surfaces. PGMC4 U-Pins also physically anchor the mats to the floor, further eliminating slippage.

Benefits:

- Robust Construction
- Increases security of ground mats
- Prevents ground mats from slipping

PROGUARD GROUND PROTECTION MAT STILLAGE PGMS1

Product Code	Pricing Unit	Colour	Dimensions	Weight
PGMS1	Each	Black	2500 x 1300mm	50 kg

Product Description:

Proguard Ground Protection Mat Stillages are an efficient and safe solution for storing and transporting ground protection mats.

These stillages minimise the chances of ground protection mats shifting in transport and reduce yard space needed for storage when not in use by allowing safe stacking of the mats.

Benefits:

- Stackable
- Durable steel construction
- Suitable for handling with a forklift or telehandler
- Compatible with PGM1, PGM4 and PGM9 mats
- Space saving
- Enables safe material handling.

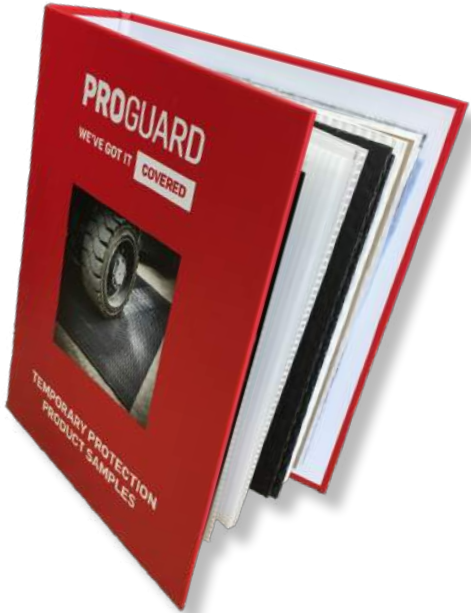

OUR HEAVY-DUTY MATTING OFFERS A SOLUTION FOR BOTH SHORT-TERM AND LONG-TERM PROJECTS.
